

Enterprise Offer Guide

Published package estimates and selectable identity, governance, support, and implementation options.

Transparent package design: subscribe to Enterprise Core, select only needed integrations and support, then pay onboarding separately after activation.

Enterprise Core

Package	Published estimate	Includes
Enterprise Core	\$299/month	Standalone plan: complete dashboard, Bio Pages, Postly CRM, API, MCP, 25 channels, organization operations, governance, analytics, identity/security readiness, audit and status visibility.
Additional channels	\$4/channel/month	Channels above the 25 included in Enterprise Core.
Annual billing	20% estimate saving	Subject to approved commercial terms.

Selectable recurring items

Item	Published price	Activation
SAML/OIDC SSO	\$249/connection/month	Customer identity provider
SCIM provisioning	\$249/directory/month	Customer directory
SIEM event streaming	\$249/destination/month	Customer-managed HTTPS destination
Priority support + account manager	\$299/month	Priority routing and named Postly resource

Separate one-time payment

Item	Published price	Includes
Onboarding and integration setup	\$1,500 one time	Organization setup, administrator onboarding, launch planning, and first standard integration

Important commercial notes

- Prices exclude applicable taxes unless stated otherwise.
- Enterprise is standalone; historical plan snapshots are retained only for restoration if Enterprise ends.
